

Special Features

- 10 ICOM'S NEW IC-707 HF TRANSCEIVER:** Ken Reynolds takes a first look at Icom's budget priced new HF rig. Great performance - and for less than \$1900.
- 16 THE OZ DOLLAR CRUMBLES:** John Day looks at the crumbling A\$1 from a retailer's point of view and Chris Edmondson tells why it's so...
- 22 HI-TECH DIGITAL NOISE REMOVAL:** Neil Duncan reviews a couple of quite amazing "black boxes" which surgically remove unwanted noise from incoming signals.
- 26 SATELLITES - THE SCIENCE, TECHNOLOGY and INVESTIGATION:** Tired of waiting for pay-TV? Paul Butler reports that satellite television may be just the thing for you.
- 31 AMATEUR INVOLVEMENT IN THE RECENT BIG AMERICAN FLOODS:** An ARRL report on how a team of amateur's assisted during the big flood.
- 36 THE WIDE WORLD OF AMATEUR TELEVISION:** Thomas King reports on amateur television and how you can put yourself in the picture.

IN THE NEXT ISSUE (maybe):

It's a brave editor who tells readers what's coming up in the next issue, however, let's bite the bullet and try our luck. The certainties include an article on whether the Sydney Middle Head communications centre is worth preservation as an amateur museum; one, maybe two, DIY projects; at least two rig reviews including a DSE kit-built 2M transceiver; and all the usual columns. Others, which will be in the next or later issues, include a Neil Duncan review of an MFJ 20m CW transceiver; a complete ARRL DX list; an article by the well known antenna expert G4ZU; a couple of antenna reviews; more on satellites by Paul Butler; a Thomas King report on QRP operation by OK1DKW...and a whole lot more...stay tuned.

Next issue out 26 October. Reserve your copy today!
