**Cover:** When seen on their own these antennas don't really look all that much out of the ordinary, do they? But take a look at the wider shot on page 24 and you'll realise just how big these EME monsters are — or, depending on your viewpoint, just how small a house **David Tanner, VK3AUU**, lives in. **Michael Ross, VK3APW**, took the photo. The cute little radio at the bottom of the cover is Icom's new IC-R100 mobile wide-band receiver. You'll find our review on page 14.
