MAKING PCBs AT HOME

Forget those dangerous chemical concoctions, and don't accept those *really* messy board you really wouldn't want your friend to see. Check out Kerry Power's simple plot!

36

BASIC ELECTRICITY

What magic does Ron pull from his hat this month? More on power supplies, and introducing filtering.

Check the COLOUR

DXCC LIFTOUT CHART

This one's definitely for the CB gang!

11m DX INTERNATIONAL

They reckon all good things come to an end, and Jack's 12-year reign in the CB DX hotseat finally concludes this month. Thanks Jack.

SCAN MASTER SP-55

When your antenna is all it can be, what's the next thing to improve your scanner's performance? Scan guru Russell Bryant reckons this gadget may be the very thing...

A VISIT TO MALAYSIA

Way up the back, where we can use more color, we join Jack Haden on a flying visit to Malaysia.

AOR AR-1500 RETRO

John Batty listens to some pretty weird stuff. So how's he hear it? Well, an old AR-1500 is one of the ways... John reminisces.

SURF THE GREY LINE!!

Steve Ireland shares some secrets of DX, by explaining how *you* can put the grey line to best advantage.

December will be Dynamite! See you with luck on Nov 29!
