

8 **READER SURVEY – THE WINNERS AND RESULTS**
Here you are, at last! We finalise the R&C Reader Survey. What did you think - and what have you won?

10 **SPACE STATION ALPHA**
The International Space Station is manned and ready to rock and roll on amateur radio. John Batty's ISS column was another good excuse for lots of **color** photos! Here's one not in the story. This is the ISS two metre amateur radio antenna.

16 **EMR: SHOULD WE WORRY?**
The ACA has announced some new standards which could hit the amateur service hard. We asked Ron Bertrand to examine them...

20 **UNIDEN UBC-248CLT**
The Editor checks out Uniden's most affordable desktop scanner, and comes away *most* impressed!

22 **BASIC ELECTRICITY**
This month, Ron's terrific course tells you all about at **Electric Measurements and Meters**.

INDEX OF ARTICLES

This mammoth list covers every special feature article we've ever run! Go back to Number 1 and see where it all started...

SPRING FIELD DAY

It's amazing what a little nous and determination can do! Andrew Scott, VK2TWO, headed for the bush last month – and had a ball!

11

m **fff**

P3D is OSCAR-40

We caught the launch of Ariane mission 135, carrying the 660kg P3D aloft.

UTILITY RADIO PRIMER

Okay, so what can you hear between the broadcast bands? Chris Edmondson check it out...

ALBURY HAMFEST ON TV!

Get an SSTV nut hooked into the Internet, and anything might happen!

MENORCA ON THE AIR!

The wife thought it was a quick week's holiday. Fat chance when you're married to an amateur!

Join us again sometime in January for the New Millennium!
