

Features

18 Delving the Dark Continent

if you have ever wondered if there's much shortwave activity from the depths of Africa there's no need to keep wondering – Craig Seager tells you why...

24 Trunk Tracking

It's a whole new ball game as Russell Bryant provides scanfans with the inside info on trunk tracking...

38 The WiA replies

The WiA move into the 21st Century – from the other side of the fence.

34 Antenna Special

American LB Cebik, W4RNL, is one of the world's top antenna men – here's your chance to read what he would select if he could only choose one antenna.

38 understanding WWV indices

While originally aimed at 6m operators, this in-depth article will provide all operators with a better insight as to what those strange propagation figures mean.

62 UBC780XLT Tips

We asked GregTowells, VK2GJT, for a few hints and tips on this new rig – here are his answers..

71 Breaking New Ground

International 2m/70 cm. QSOs – via IRLP – one of the biggest amateur technological developments in fifty years!.....Bob Bell, VK2UTG reports

on this exciting new facet of the hobby.

Reviews

11 UBC780XLT

It's been a lengthy wait but Russell Bryant reckons that it's been well worthwhile.

38 IC-M502

For a change of pace, Neil Duncan, VK3ND, had a play with icom's M-502 VHF marine radio – now all he needs is the boat to go with it.

45 Yupiteru MVT7300

Definitely one of the better ones – and it sells for less than \$700. Russell Bryant has carried out a comprehensive review.

Regulars

5 Worth Knowing

No "editorial comments" this issue, just a couple items worth knowing...

17 Retro - Yaesu's FT 102

Neil Duncan, VK3ND, looks back on this "oldie, but still a goodie" transceiver.

22 Baudwalk

Despite being confined to bed with a foot injury, Tom Sundstrom, W2XQ, came good with his look at what's on the internet.

31 The 27MHz Dxe

Jack Haden, VK2GJH, tells you what you've been missing by way of DX on the 11m band.

40 Shortwave

There's been a whole heap of on-air activity during the Tandem Thrust exercise up north – Greg Batty reports.

47 50MHz DX

The ever active Jack Haden is back with the recent 6m hit parade.

51 DX Band and iOTA

is of course where you will find the latest HF DX information courtesy of well-known DXer Jim Smith, VK6NS.

55 Shortwave

If it's where and when to listen for shortwave stations you're after Craig Seager, who provides enough info to keep you going until the next issue.

64 Circuits Galore

From Syncro's Jos Hahn comes the latest installment of these popular pages.

67 Modifications

Greg Towell's modifications column this issue looks at some hints and tips on a couple of AOR and Uniden scanners.

74 Flightwatch

Bob Bell really does give you some behind the scenes data and information on the airline business...

78 DX Propagation

charts tell you what sort of a DX month you're likely to have.
