PAGE 42

Automate those CQ calls with this month's kit project, a great little digital voice recorder! The uses are limited only by your imagination.

Radio at its finest, many said. *News Desk* follows the many groups of volunteers who flocked to New York, Washington, and other points in the aftermath of September 11.

Attack on the Free World 10

A special series of reports into the impact of radio on and following the terrorist attacks, in a series of special articles by several authors.

Technically Speaking №5 18

Ron Bertrand introduces antennas, and explains the fundamental principles under which they all must work. This time, Antennas #1.

Review: DXtreme software 32

Here's Part Two of a multi-program examination by Anthony Smith. It's clear he's an enthusiast for this kind of radio...

Cover story: Meet Mr ICOM 37

This is as much the story of ICOM Incorporated as it is the story of one man. Reprinted with the kind permission of the author and CQ, it traces the story of Icom from its very first radio...

Project: build a digital voice recorder 42

This one's a cracker. The more you think about it, the more things you can do with a digital voice recorder. Not only that, but it's cheap to buy and straightforward to construct!

The USA Disaster in Pictures 46

They say a picture tells a thousand words. We reckon this batch tells many, many more than that...

A Wilpena Pound DXpedition 50

Head for the bush with Bob Padula as he and a mate search for the quietest radio location you can think of. Looks as though there was a fair bit of fun thrown in with the serious stuff...

Build a Frequency Tracking Loop! 42

Here's Part Two of a thought-provoking construction article by Phil Harman, VK6APH. Come on, those loop things don't actually work, do they? What, they DO?! Check this out. If you're in a confined operating area, this thing may well prove its worth.
