

REVIEW: ALINCO DR-150E DATA RADIO

A surprisingly adept performance from this all-new 2M mobile...

HOBBY RADIO AND THE INTERNET

Here's Part Two of our new look at the Internet. Two parts, by David Flynn and Rob Williams.

COMMS SOFTWARE

The computer belongs in the shack. You may as well put something interesting on it!

REVIEW: D-130J

Diamond is famous for its two-way antennas. Now let's check out its latest comms discone.

SUPERIOR DIPOLES

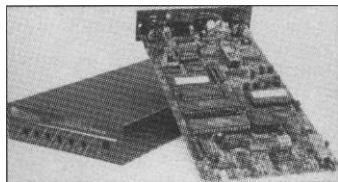

Steve Ireland's been at it again. Here we go with full construction notes for a better dipole design.

LINUX WHO?

Regular Packet radio and Net users will have heard plenty about Linux – but what *is* it? VK2KTJ has the answers...

COMPETITION: WIN A MOBILE ONE ANTENNA

You could win a great antenna!

REVIEW: PACCOMM SPRINT TNC

'Sprint' by name, speedy by nature. This is easily the fastest Packet Radio TNC we've seen.

IT'S ALL IN THIS ISSUE

34 REVIEW: GME TX822 AND TX2000.

Two new AM-only 27MHz CBs for the op on a budget.

37 WHERE'S ALL THE HF DX GONE?

Look, it *must* be lurking somewhere... These IPS charts tell the sad and gruesome story.

41 YOU CAN BE A FRE- QUENCY DETECTIVE

Okay, you've got your new scanner. Now learn how to use it!

44 REVIEW: PRO-AM HF WHIP ANTENNAS

Going HF mobile with a gutsy amateur rig can be great fun – but it's loads more with a good antenna.

48 SCAN THE QLD POLICE!

Here's all the data you need...

56 REVIEW: CAMNIS HSC-050

Speaking of scanning, here's an all-new hand-held scanner with a difference – spectrum and modes!

78 COVER STORY — THE POLICE AIR WINGS

The 'eyes in the sky' have access to some pretty fascinating gear...

86 OPTOELECTRONICS

What can you do with a scanner which has no tuning or readout?
