

IT'S ALL IN THIS ISSUE

REVIEW: UNIDEN UH-100 UHF CB

An all-new CB rig is news these days, and this gem from Uniden goes straight to the top of the class. Ken Reynolds reports...

REVIEW: OPTOELECTRONICS XPLORER

Here's a unique little gadget with a very big name. It's a receiver which locks onto any strong nearby signals, displays the received frequency and lets you hear the audio. What next?!

CLASH OF THE TITANS

We've been talking about this... a multi-way, no holds barred HF shootout. The Icom IC-775 faces the Yaesu FT-1000MP and the Kenwood TS-870S — and throw in the IC-781 for good measure.

47 REVIEW: ICOM IC-T7A DUAL-BAND HANDIE

Here's a really small radio with really big credentials. It's Icom's latest baby 2m / 70cm HT, and it gets a whopping 750MHz receive range. Wow!

51 SLOW-SCAN TV: IS IT FOR ME?

One of the "forgotten" modes. That's how Jim Smith, VK9NS, sees SSTV. Once a popular mode, SSTV still has a lot to offer... This is part one of a three-part series.

53 EMERGENCY!!

Dammit! The world's on fire, the ambo's are rolling and the coppers are in a tizz — and I can't find them! Here's where to tune to find what you need. This month Victoria.

72 ODDS AND ENDS

Here are some of the hints and tips which can make life easy in the average radio operator's shack. See if you can think of some and send them in!

71 WIN A YAESU FT-50R!

Here's your second and final chance to win a great Yaesu FT-50R dual-band transceiver.

12 BAUDWALKING INDEX

Our prolific Internet man, Tom Sundstrom, has indexed all the net sites we've visited together in the last six months. Here's part two of the current index.

13 SUBSCRIPTION PRIZE

We recently ran a huge competition for subscribers. Did you win...?

10 THE HISTORY OF TELEGRAPHY

Here's a brief but really fascinating look at telegraphy in all its forms. Where and when did it all start?
