

7 **RADIO NEDERLAND — 50 YEARS YOUNG...**

Here's a fascinating condensed history of one of the world's major shortwave broadcasters.

Tom Sundstrom reports...

12 **REVIEW: A NEW UHF CB — UNIDEN UH-088**

Here we go with an all-new UHF CB transceiver. Ken Reynolds predicts big things...

16 **REVIEW: YAESU FT-920**

How can a full-sized base radio with 33.3MIPS DSP, HF, auto ATU and six metres cost so little? Neil Duncan checks it out.

20 **SCANNERS: WHICH ONE?**

Russell Bryant sat down with a large pile of scanners to work out which ones were best. Here's the first part of his comprehensive report.

23 **BATHURST — THE RACES**

Okay, you head up for the races. Taking a scanner? Why not! Two weekends of racing means *twice* the fun. Just ask Michael Evans.

IT'S ALL IN THIS ISSUE

38 **REVIEW: VIDEO VIA RF!**

The Pactel cordless video system could have a lot to offer the ATV gang. Get one for *your* shack!

40 **ALL IN A DAY'S WORK**

Here's Harry Leeming, G3LLL, again. Is there no end to this man's broken radio stories?

43 **DIGITAL HF INVADERS!!**

Tom Sundstrom reports on a most disturbing newcomer to the HF bands — digital car trackers. Will they come here??

59 **CHASE THE SUN TOUR!**

You can join in the fun of the chase. For a couple of frantic weeks, cyclists will be chasing each other around Victoria. The Tour's Mr Comms, Michael Evans, reports...

66 **ANOTHER STATE RADIO NETWORK — TASMANIA**

The littlest state is setting up a major UHF radio network. You should try this, suggests Jason Reilly.

75 **BUILD A TRANNY BFO**

Here's part two of a simple local project. Bung a BFO into your old shortwave tranny and hear the world... on SSB or CW.

83 **BUILD AN RX-ONLY ATU**

Here's the concluding part of a handy little project. This ATU is ideal for a receive setup...
