

## JUDICIOUS REX SAYS...

Hello, who's this? Our old friend, the legal correspondent with *clout*, returns to the fold with a new, regular look at the issues which affect us all — the law of the land!

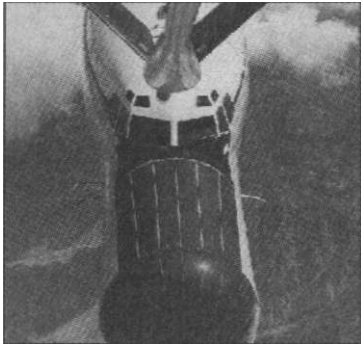

## H40AA DX WITH FLAIR!

Matti, OH2BH, will be well known to many amateur HF DX hounds. He recently activated the Solomon Islands for a new country. Why a new country? Read on!

## ARIA TRACKING PLANES

It may be dinosaur technology today, but when the Apollo capsules were around, this was leading edge stuff! Lost a manned spacecraft lately?

## REVIEW: MFJ-224 2M FM RIG/SIG ANALYSER

**H**ere's a novel gadget — you can check out your deviation and all manner of things with one of these! Neil tried it out...

## MONGOLIA FROM INSIDE

Travel writer Tom King, VK2ATJ, recently returned from JT-land. Not many active ops maybe, but those who are active are

# IT'S ALL IN THIS ISSUE

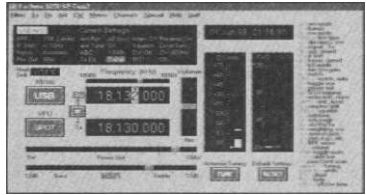

## 31 WHITE WATER RAFTING

Okay, we give up. What's this got to do with radio? Simple. Comms. Without radio you're *lost*... Photo journalist Michael Dale reports.

## 35 REVIEW: KACHINA 505 DSP COMPUTER RADIO

Sure, sure, another computerised receiver, eh? *Wrong*. This amazing newcomer is a stand-alone HF transceiver of extraordinary ability which happens to use a PC as its front panel. Phil Harman reports...

## 46 NUMBERS STATIONS

This is fascinating stuff indeed. Even if you *never* tune the SW bands, read Simon Deneen's story.

## 58 CLANDESTINE RADIO #4

Here's the final instalment of this absolutely absorbing series.

## 72 CONSTRUCTION ZONE

Low Ohm measurement is the topic this month. Harold tells us how!

## 96 THE LAST WORD

Meet the Exeloo, complete with a personal guided tour by our in-house dunny expert, John Kolm.
