

BATTLE CREEK SPECIAL

No, put that bayonet away, this is an antenna. But *what* an antenna! Here are the complete step-by-step instructions on how to build a very proven HF performer. From VK6VZ

REVIEW: ASAPS VERS 4

Speaking of battle, here's an old soldier. We've watched as ASAPS grew through several versions, and this one is far and away the best one yet. So what does it do...?

JOTA/JOTI IS COMING...

Jamboree-On-The-Air... a great way to get newcomers into radio! Now it's your turn to help out...

REVIEW: ALINCO DX-77

Here's a great new HF transceiver from Alinco. There's no other word for it: cheap. So how well does a "cheap" radio perform? Be ready for a few surprises, says Neil, VK3ND.

FUN WITH DTMF CHIPS

Welcome Jos Hahn with one of the most surprising articles we've seen in ages. A humble DTMF chip eh... Reckon you couldn't do much with one of them? Think again!!

BUILD A 2M HALO

Mobile two metres SSB is great fun, but how do you get a horizontally-polarised antenna for the car... one that arnallw unrkQ? Hpre am ^tpn-

IT'S ALL IN THIS ISSUE
