

CONTROL YOUR VX-5R!

Computer control, that is! Tom Sundstrom bought a nice new Yaesu VX-5R, and programmed it with the latest version of ADMS...

MIR SSTV - THE START

Here's a fascinating insight into the slow-scan TV experiment on the Mir space station. The real inside story, from one of the blokes who made it all happen in the first place!

THE DXCC PROGRAM...

Jim Smith explores the DXCC from the inside. This month, the intra...

TRIDENT TRX100-XLT

Here's a shiny new scanner, in more ways than one! Jason Reilly checks out the new kid on the block.

Jammed with action!

42 So you want to be a... QSL MANAGER!

Jack Haden loves his QSL cards. And some stations need help getting them out. The answer is a QSL Manager. So how's it work?

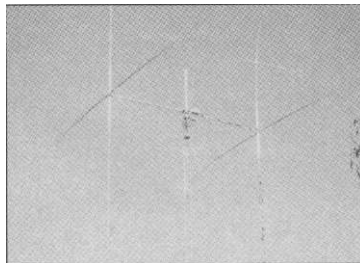

56 ICOM IC-706MKIIG

Dunno why they didn't call it a MkIII! The latest version of the 706 might *look the same*, but it's a bold step beyond the original. Ask VK3ND...

74 TUNING MINI QUADS

A great radio's no value without a good antenna. But even the world's best antennas are no good to you unless they're correctly tuned. Steve Ireland tells you how to do it...

80 BAUDWALKING INDEX

Another six months have roared by, so it's time for another index of the world's greatest Internet sites...

82 UHF CB REPEATER LIST

Heading for the boonies? Tune to these channels for help and advice!

96 THE LAST WORD...

Preamble? Who needs a preamble?
